

Miguel Cidade Silva

Software Engineer · Backend Developer · Machine Learning Enthusiast

I am a hard working person with a deep thirst for knowledge and self improvement
I have a wide variety of interests both inside and outside my area of expertise.
From sports, to pop culture, I consider myself an informed person capable of discussing most topics.
As I pursue my goals in life, I also love to help others reach theirs, providing support whenever possible.

GOALS

- I hope to experiment with new technologies, further improving my skills.
- I am always looking forward to exchange experiences with like minded individuals.
- For me, making connections is crucial. As they say: "teamwork makes the dream work!"

HARD SKILLS

Python	●●●●●
SQL / PostgreSQL	●●●●●
HTML + CSS + Javascript	●●●●●
React	●●●●●
React Native	●●●●●
Android Studio	●●●●●
Node JS	●●●●●
C#	●●●○○
Machine Learning	●●●○○
Docker	●●●○○
Java	●●●○○
C	●●●○○
C++	●●●○○
Unity	●●○○○
Blender	●●○○○

LANGUAGES

Portuguese	Native Language
English	Fluent

EXTRAS

Sports I practiced:

- Swimming (ages 3-13): Pre-competition team at Sporting Clube de Braga
- Taekwondo (ages 12-16): 1st Kup (belt before black) at ABC and Sporting Clube de Braga
- Volleyball: High school and university recreational teams
- Gym: Currently I train at the gym on a regular basis

Driving:

- I have a type B driver's license (private cars)
- I own a personal vehicle

WORK EXPERIENCE

Oct 2026 – Nov 2025
Backend Developer
JTA The Data Scientists · Porto, Portugal
Developed new functionalities to improve JTA's Web Scraping solutions using **Scrapy**, **Python**, **Redis**, and **MongoDB** while also working on an **API** and proprietary libraries. This project was integrated with **Azure**

Oct 2025 – Apr 2025
IEFP Internship
OmniumAI · Braga, Portugal
Developed new tools for the CibusAI chatbot, leveraging data from dynamic sources such as an **API** or **PostgreSQL** database via **Python** and **Django**. Scraped web data to create a database to empower an application developed for a client.

Sep 2025 – Sep 2023
Membership Committee Member and Vice Chair
IEEE UMinho Student Branch · Braga, Portugal
Organized dinners, nursing home visits, game nights, and volunteer work. Assisted with **Engineering Olympics 2024** and **2025** and attended **IEEE Melecon 2024** in Porto. Promoted to committee Vice Chair in Nov 2024, ensuring operations and coordinating engineering showcases in high schools. Organized a day with multiple workshops for over 50 students.

Jul 2024 – Jul 2024
Summer Intern
Accenture · Braga, Portugal
Over the course of a month worked on a project that consisted of making a simple virtual reality game in the **Metaverse** using the **Unity game engine**, **C#**, and **Blender**. During this internship, the team followed Agile development methodology via the Scrum framework.

Jul 2023 – Jul 2023
Summer Intern
ITSector · Braga, Portugal
My first corporate experience. Here I learned multiple new things using **C#** and the **.NET framework** along with **Umbraco**,**SQL Server**, **HTML**, **CSS** and **Sass** and implemented a personal project and attended meetings of a team that worked on a real project.

EDUCATION

2025 – 2023
Software Engineering Master's Degree
University of Minho · Braga, Portugal
I have a Software Engineering Master's Degree, specializing in Artificial Intelligence and Software Development. I finished my dissertation with a 18/20 grade and my degree with a 17/20 grade.

2023 – 2020
Software Engineering Bachelor's Degree
University of Minho · Braga, Portugal
I have a Bachelor's Degree in Software Engineering; during it, I never had to repeat any curricular unit, and I finished with a 14/20 grade.

PROJECTS

LLM Sentiment Analysis | Python Functional Extension | Android Apps | NodeJS Website | ITSector Personal Project

SOFT SKILLS AND WEAKNESSES

Communication | Team Player | Resilience | Hard Worker | Interested | Stubborn | People Pleaser | Insecure | Sensitive | Self-criticism
